Maintenance Services That Save You Money

At Tucker Mechanical we offer a comprehensive array of preventive maintenance and repair services to help keep your equipment running smoothly. Our highly trained technicians have extensive, hands-on experience maintaining and repairing mechanical equipment.

Because we are manufacturer independent, our employees receive training to prepare them to service various types and brands of equipment—from small, air-cooled systems to central energy plants with thousands of tons of cooling capacity.

Full Range of Maintenance Services

- » Scheduled inspections tailored to your system requirements
- » Testing and replacement of air filters, belts, cleaners, oil filters, and lubricants
- » Up-to-date maintenance recordkeeping, including combustion efficiency reports, technician recommendations, refrigerant usage, and more
- » Professional engineering assistance
- » Complete and accurate repair quotes
- » Preferred customer service 24/7/365

Benefits of Preventive Maintenance

Signing up for a planned preventive maintenance agreement with Tucker Mechanical can deliver several tangible benefits, including:

- » **Less downtime:** When maintenance is planned ahead of time, it is easier to work around production schedules or perform repairs during off-hours.
- » **Stability:** Maintenance agreements offer a fixed cost throughout the year and help avoid service delays.
- » **Lower operating costs:** Regular maintenance helps equipment run more efficiently and effectively, while also helping prevent additional expenses for premature equipment replacement.
- » **Satisfied tenants:** When HVAC equipment performs well, it creates a more comfortable environment for occupants, which can also lead to increased employee productivity.
- » **Peace of mind:** When an unexpected emergency does occur, our technicians are on-call and ready to solve the problem.
